

Mother's Day 2024

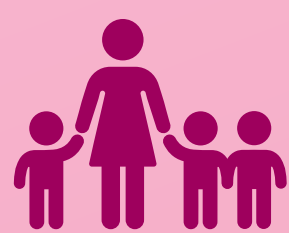

According to the 2022 Population Census, nearly the half of the 3.1 million mothers in Hungary gave birth to two children.*

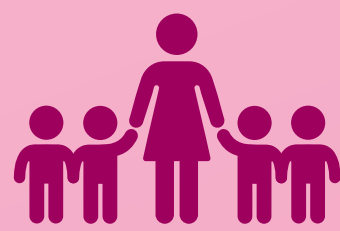

976,770 persons
with 1 child

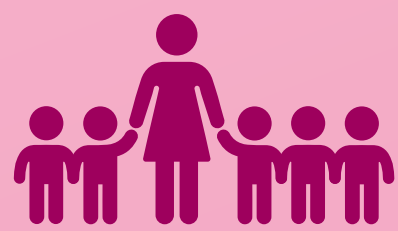

1,502,768 persons
with 2 children

479,608 persons
with 3 children

111,817 persons
with 4 children

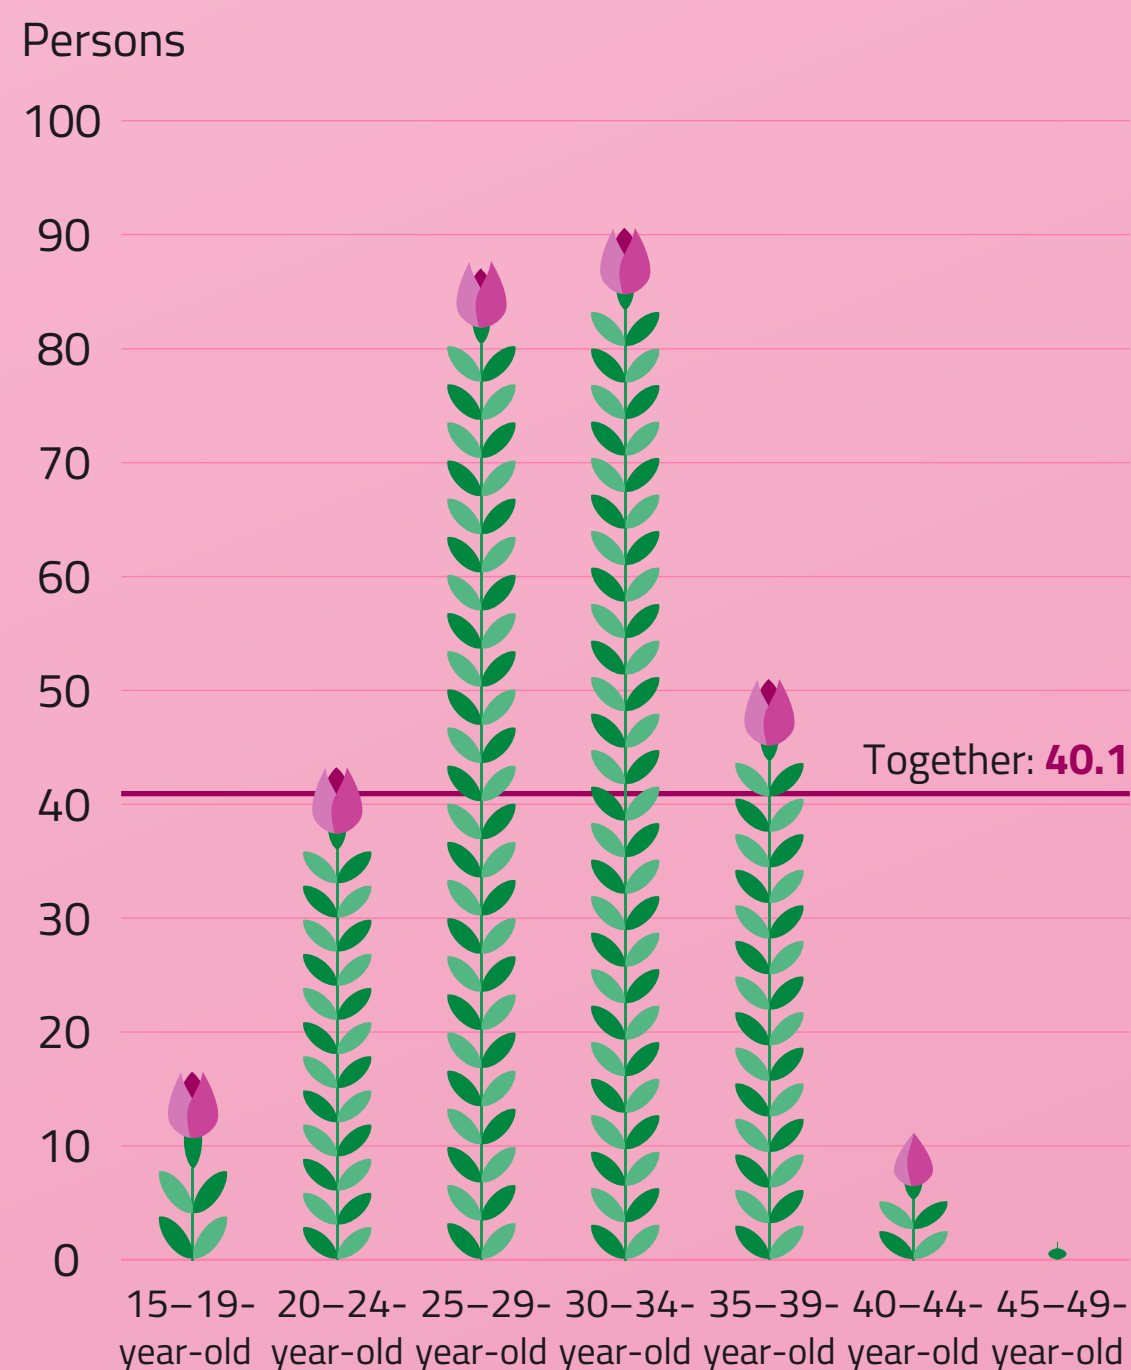

60,348 persons
with 5 or more children

* Among 15-year-old and older females.

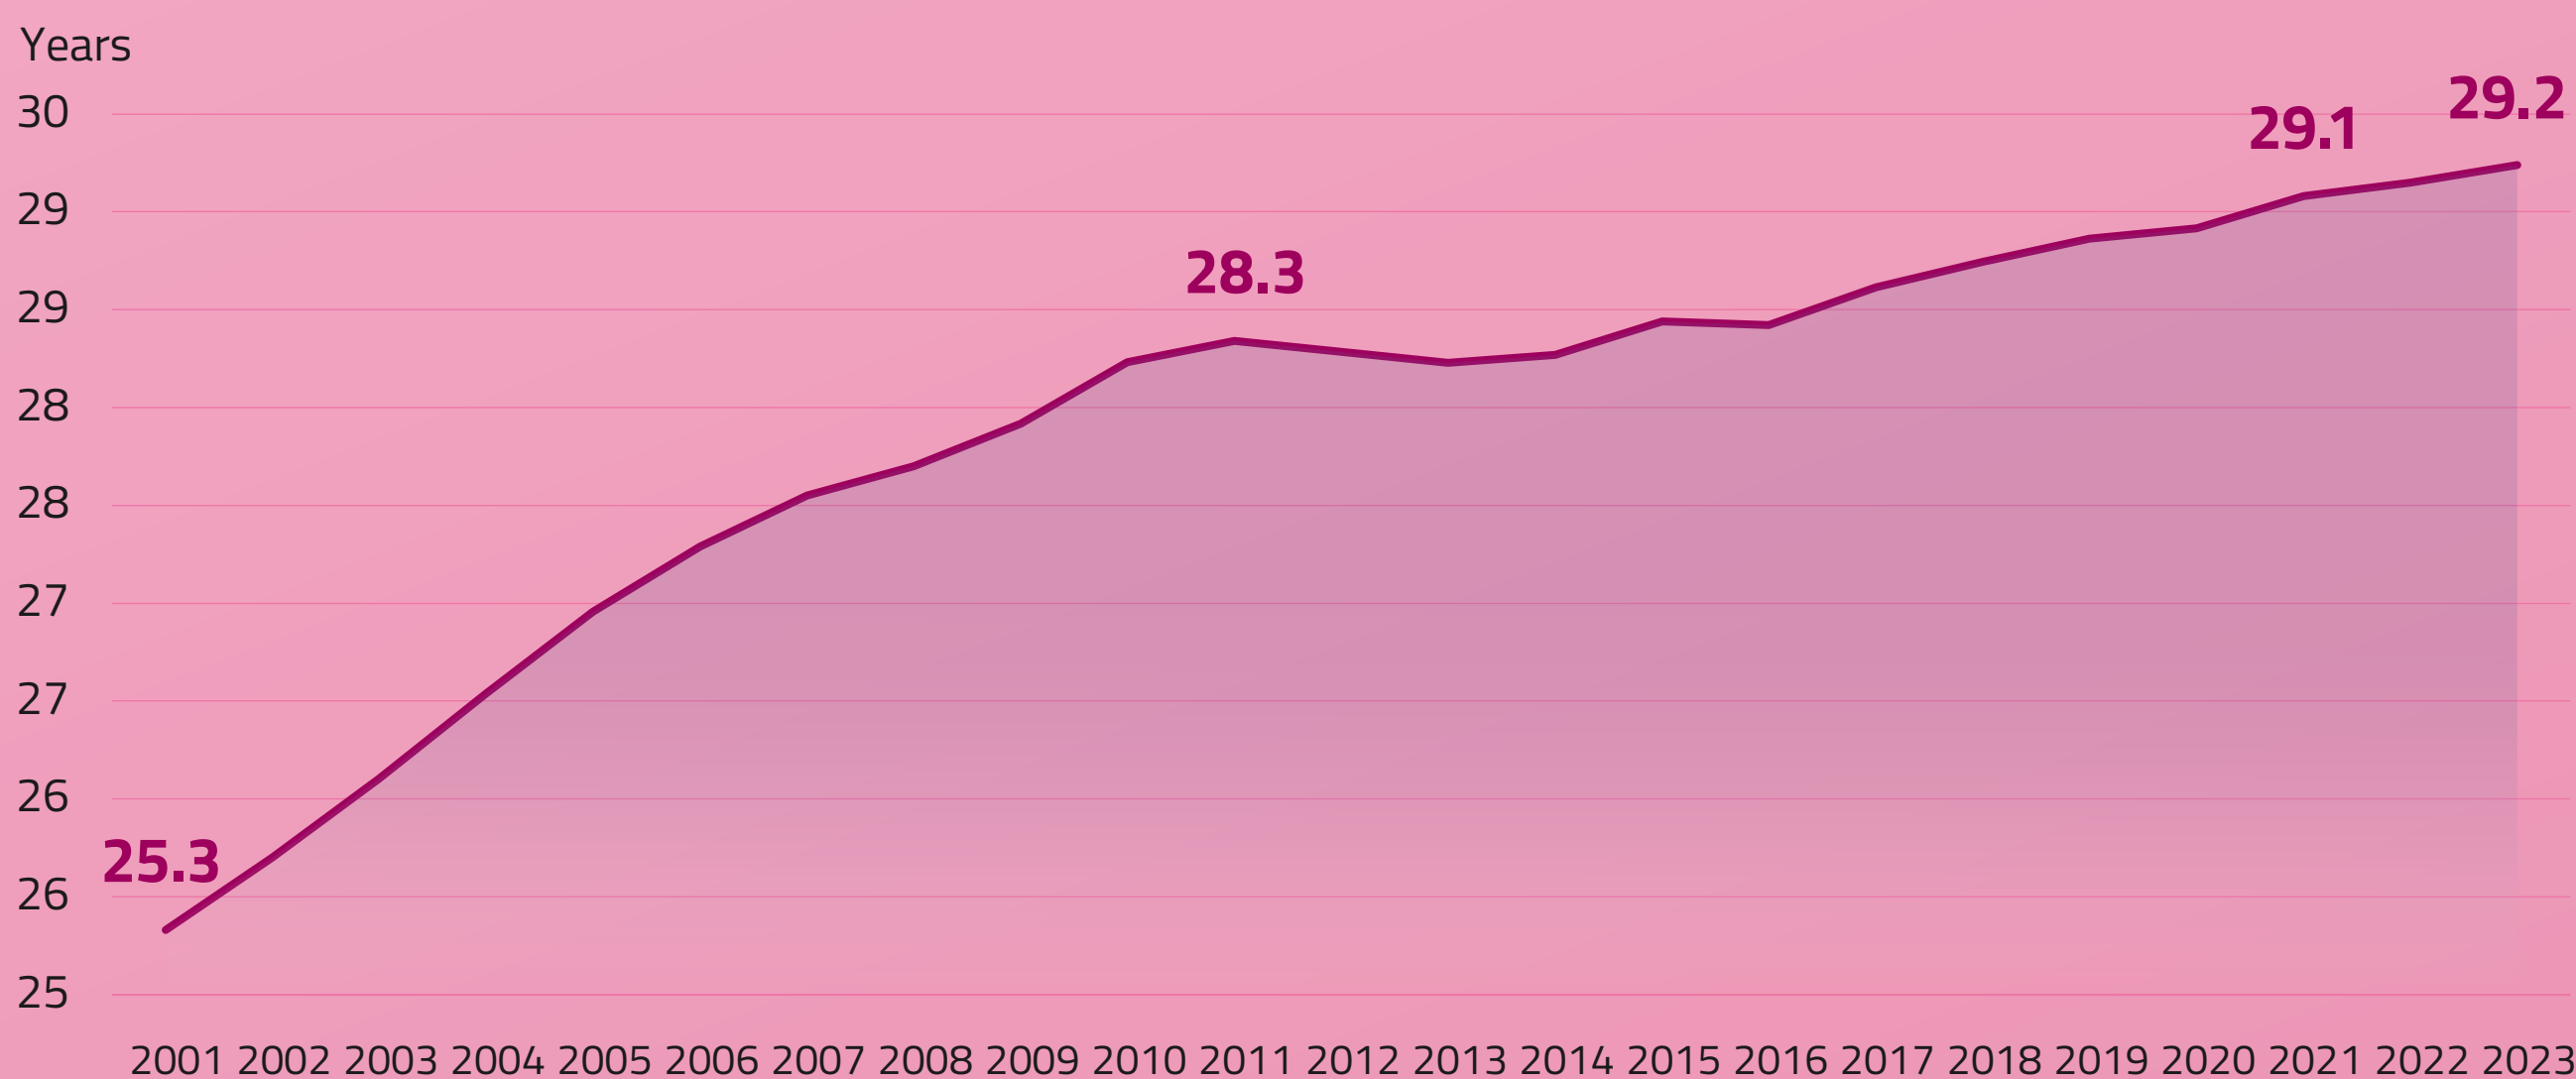

Number of live births in Hungary per thousand females of corresponding age, 2023

The highest rates of child-bearing were measured for 25–34-year-old females.

Mean age of females at birth of first child, in Hungary

Females become mothers at an increasingly later age.
